

# It's time to make a statement

Go from "blah" to Blue or Burgundy with Wilmer Medical Billing forms and envelopes!

Who says billing statements need to be bland? Our general purpose medical billing forms now come in two colors – Blue or Burgundy. A great way to bring attention, style and professionalism to ordinary documents. Compatible window envelopes are also available, see the enclosed samples for a first-hand look at the quality you've come to expect from Wilmer.

The medical billing statements are printed on 24# white laser bond with micro-perforation for ease of printing, opening, and remittance. Forms are available with preprinted "We accept M/C and Visa" or "We accept M/C, Visa, Discover, AmEx" on the front and change of address/insurance backprint.

Our full line, available in 500/pkg, includes:
